

Project Users

The Users section of the Project Detail page shows all users who currently have access to the project. Each user is displayed as a card showing their name and email address. The currently logged-in user is identified with a "You" badge.

Users can be removed from a project by clicking the X button on their user card. To add new users, click the Invite button in the top-right corner of the project page and enter the email address of the person you wish to invite.

Revision #3
