

# Projects List

The Projects page displays a table of all projects accessible to the current user. Each row shows the Project Name, a team icon indicating user membership, and the Created date. Projects are the primary organizational unit in SiteTrax.io - all videos, assets, and integrations belong to a specific project.

Clicking on a project name navigates to the Project Detail page. A search icon in the top-right corner allows users to filter the projects list by name.

The screenshot shows the SiteTrax.io interface. On the left is a sidebar with navigation options: Dashboard, Videos, Assets, Reports, and Projects. The main content area is titled 'Projects' and contains a table with two columns: 'Name' and 'Created'. The table lists five projects, each with a team icon and a creation date and time. At the bottom of the table, it says 'Showing 1 to 5 of 5 results'. A search icon is visible in the top right corner of the table area.

Name	Created
SiteTrax.io Project	March 20th, 12:50 pm
Website Project	February 24th, 11:27 am
Website Project	February 24th, 11:23 am
Website Project	February 5th, 12:45 pm
Website Project	March 10th, 12:07 pm
